

Your All-In-One Recruitment Solution

Less Admin. More Placements.

MOBILEROCKET.CO.UK

Why Choose **Mobile Rocket**?

Our innovative app technology streamlines the recruitment process, enabling you to place more candidates efficiently.

We support agencies in scaling their operations, from registration to payroll, on any device, using cost-effective, compliant technology. Rocket was built to eliminate outdated, manual processes.

App technology, e-Registration, Shift Management, Online Timesheets, CRM, Right to Work checks, and Online Reference Checks all pulled together with the power of AI are the foundation of what we have become today.

Introducing **Rocket AI** The Future of Recruitment is Here

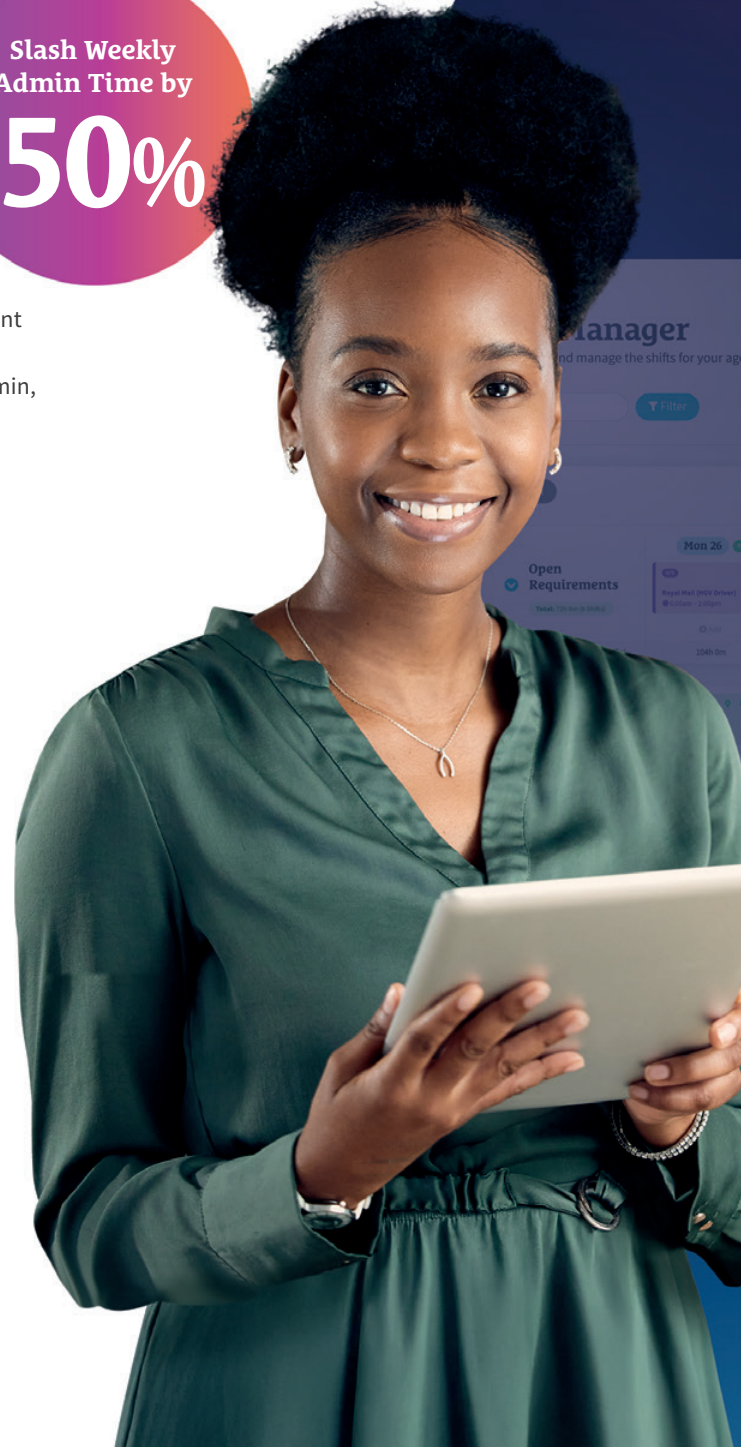

Purpose-built intelligence to streamline every step of the recruitment process. Say hello to Rocket AI, your personal recruitment sidekick. Built directly into the platform, it helps consultants cut through admin, find answers instantly, and get daily tasks done 50% quicker.

Key Features:

- **Instant Access to Key Info**
Placement details, client history, candidate site or role experience available at a moment's notice.
- **On-Demand Reporting**
Need numbers fast? Pull instant detailed reports on hours worked, candidates at a site or your most valuable clients.
- **24/7 Smart Support**
Got a question about the system? Ask Rocket AI and let it guide you through the platform whenever you need help.
- **Your Personal Assistant**
Cut repetitive admin in half with AI so you can focus on placements, not paperwork.

Rocket AI makes support simple, serving up video walkthroughs the moment you need them.

Introducing **Rocket ATS**

We've taken everything recruitment agencies struggle with through admin, compliance, job posting, CV chasing and automated it with AI. Our brand new ATS gives you the power to move faster, reduce costs, and deliver an experience like never before.

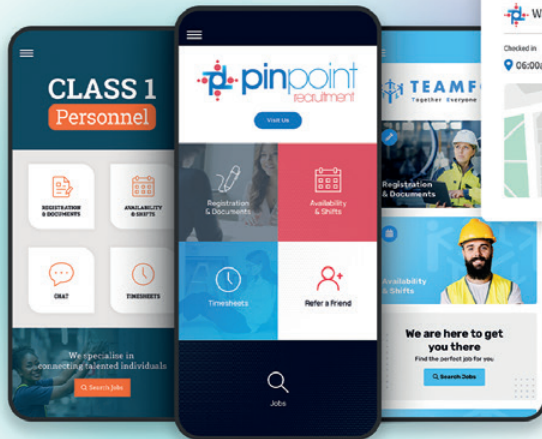

Key Features:

- **Automated AI Candidate Processing**
Parse CVs, score applicants, and progress candidates through the pipeline automatically.
- **AI-Generated Job Descriptions and CVs**
Consultants can generate full job descriptions and anonymised CVs while candidates can build a polished CV with conversational AI.
- **Multi-Stage Workflow Automation**
Right to Work checks, e-sign documents, reference checks and compliance, all automated.
- **Integrated Job Board Management**
Promote jobs across multiple job boards with a single click. Every applicant falls straight into your dashboard.
- **Smart Email Automation and Onboarding**
Keep everyone in the loop without lifting a finger. Applicants, consultants, clients and accounts all get automatic updates at every stage.

The Rocket AI logo, featuring a stylized rocket icon and the text 'Rocket AI' in white on a dark blue background.

Rocket AI

Job Listings and CVs, all Generated by Rocket AI.

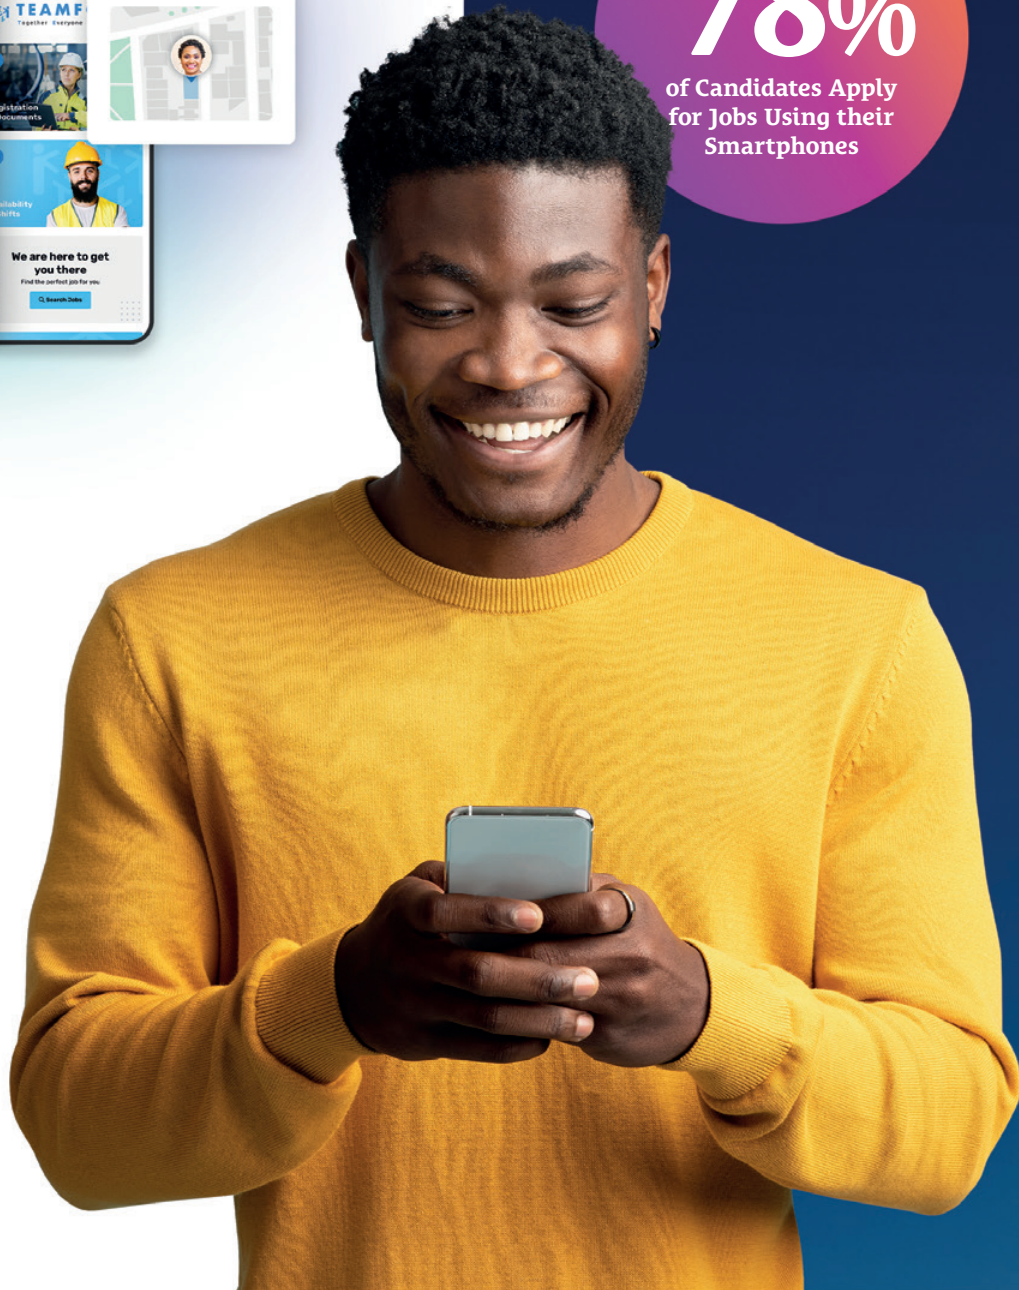

Your Very Own Branded App

Streamline candidate registration and onboarding through your own branded app, resulting in a faster time-to-placement.

Features Include:

- Push Notifications
- Job Board Integration
- Candidate Availability
- Timesheet Tracking with Geofencing Technology

e-Registration

Register and onboard candidates anytime, anywhere, from any device. Saving your team hours in admin processing time.

Features Include:

- Mobile Registration
- Candidate and Document Management
- Induction and Onboarding Packs
- Legally Signed Documents

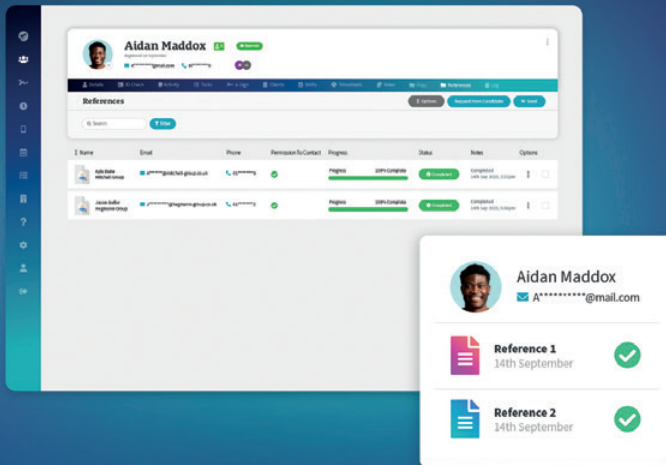

NEW

Now with custom multiple choice questions and instant auto-marking, perfect for fast, accurate compliance.

The screenshot shows a desktop view of the 'Registration Form'. On the left, there is a sidebar with a list of sections: 'Personal Information', 'Employment Details', 'Health and Safety', and 'Add Section'. The main area displays the 'Personal Information' section with input fields for Name, Email, Phone Number, and Address. Each field has a checkmark icon indicating it is completed. The form is titled 'Registration Form' and includes a sub-header 'Once you have started, you can always click save and complete it later'.

Choose from our Pre-built Templates or Customise your E-sign Forms

The image shows a hand holding a smartphone displaying the mobile version of the registration form. The screen shows a 'Click on the documents to start or complete' message with a list of documents: 'Registration Form' (19th September, 0% Complete) and 'Right To Work Check' (19th September, 0% Complete). A 'NEW' badge is visible next to the first document. Above the smartphone, a larger, semi-transparent overlay shows the desktop version of the form. This overlay includes fields for Name (Sophia Ryan), Email (S*****@mail.com), and a Signature field with a handwritten signature. A green progress bar at the top right of the overlay indicates '100% Complete'. A 'Register' button is visible at the bottom of the overlay.

Online Reference Checks

Eliminate the hassle of chasing referees and compiling references. Get verified references instantly, through our automated reference checks.

Features Include:

- Rapid Reference Checks
- Full Audit Trails
- Easy Template Creation
- Hours Saved Every Week

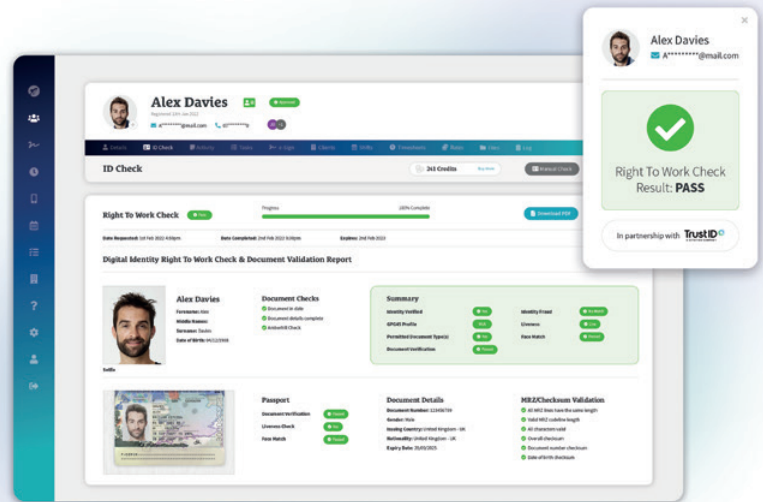

**Flexibility for your
Recruitment Agency**

Right to Work Verification

We have partnered with the UK's top certified Identity Service Provider (IDSP), TrustID to offer simple, cost-effective digital Right to Work checks that make compliance effortless.

Features Include:

- Secure ID Checks at the Click of a Button
- Verify Candidates' Identities in Seconds
- Instantly Validate Share Codes
- Complete Identity Checks from Anywhere
- Seamlessly Integrated into the Onboarding Process

A step-by-step process for verifying a UK passport, Irish passport, or ID card

- 1 The candidate receives an invitation to complete a Right to Work check
- 2 They log in to your bespoke app and securely start their Right to Work check
- 3 They then select if they have a UK passport or Irish passport or ID card
- 4 They then upload a selfie and photo of their identity document
- 5 This is then processed against databases
- 6 The full report appears in the candidate profile for you to review and approve

CRM

In one easy-to-use system, manage your Candidates and access your secure information on any device. Data flows seamlessly into the CRM through our e-Registration and digital timesheet technology.

Features Include:

- Detailed Recruiter Dashboard
- Central Candidate Profile
- Candidate Activity and Tasks
- Candidate Right to Work Approval
- Links to e-Registration and Timesheets
- Upload, Edit, and Receive Files
- Read Receipt Email Status
- Holidays and Absence Management

Need Candidates with the Right Site History?

Rocket AI finds and lists them instantly.

Customise Compliance

For Legal Control & Best Practices

Compliance

Set up your requirements for compliance, based on client, site or for specific roles. Our compliance framework gives you full control to satisfy your legal responsibilities.

Rocket automatically blocks non-compliant candidates from being booked on shifts, ensuring watertight compliance.

Features Include:

- Create and Assign Custom Compliance Types
- Individually Review and Approve Candidate Documentation
- Automatic Reminders for Document and Certificate Expiry
- Full Audit Trail of Compliance Documents

Shift Manager

Seamlessly manage candidate shifts in your recruitment hub.

Simply create your shift type, then the system surfaces compliant candidates that you can drag and drop onto the shift calendar. This then pulls into our timesheet function, allowing candidates to clock in and out through your branded app.

Features Include:

- Shift Manager Calendar
- Rates, Roles, and Shift Types
- Bulk Assign Candidates & Clients
- Quick Fill Shifts
- Shift Reporting

NEW

Give your clients the power to log in and request their own shifts, taking the burden off your consultants.

Quick Fill

Match available candidates to open shifts, with an automatic ranking of 'best match' based on criteria such as skills, location and work history.

Send out your shift to all available, compliant candidates, and watch them fill the shift for you, either on a 'first come, first served' basis or by manually filtering, letting you set the level of automation and control over where your candidates are placed.

Features Include:

- First-Come, First-Served Automation
- Manually Review Candidate Responses
- Targeted Push Notification Alerts
- Full Shift Filling Automation

Go Paperless
– Never Lose
a Timesheet
Again

Online Timesheets

Candidates can clock in/out and pause for breaks directly from their mobile device. The timesheet will then be sent to you and the client for approval in seconds. This prevents the struggle of lost or damaged timesheets and removes a significant amount of administrative work.

Features Include:

- Fully Digital Clock In/Out
- Automatic Copies Sent to Client and Candidate
- Client Sign Off Portal
- Report and Export Timesheets
- Geofencing Technology

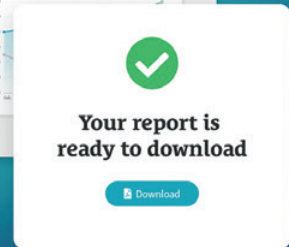

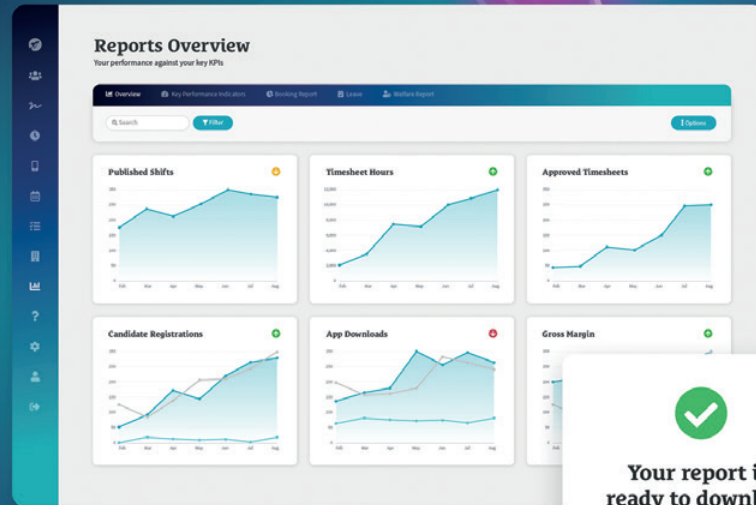

Reports

Detailed shift and fulfilment reporting allow you to make the best decisions when forecasting targets, with historical records to provide evidence of what was achieved. Set targets and KPIs per person to promote accountability in achieving your recruitment goals.

Features Include:

- Report on Activity Across the System
- Set Targets and Measure KPIs
- Filter and Refine Results
- Export and Analyse your Data

NEW

Generate in-depth holiday and absence reports with full pay breakdowns, all in just a few clicks.

Rocket AI

Whether it's consultant activity, attendance or financials, Rocket AI generates the report in seconds.

Maximise Targets with Detailed Reporting & Accountability

Integrations

Rocket integrates with trusted recruitment, compliance, payroll and finance tools to help you keep data connected, reduce manual admin and avoid unnecessary duplication.

Keep
the Tools your
Team Already
Relies on

Connect Rocket with TrustID to make Right to Work checks a smoother part of your candidate onboarding process – your team stays compliant and moves faster.

Promote vacancies on Indeed and bring applications into your recruitment workflow, helping your team reach more candidates with less manual effort.

Advertise roles through Totaljobs and keep candidate applications connected to your recruitment process, making it easier to attract and manage talent.

Move approved hours and candidate data into payroll without re-keying, helping temporary recruitment agencies run payroll with fewer manual checks.

Connect with LogicMelon to support job posting, candidate sourcing and applicant tracking as part of a more joined-up recruitment workflow.

Post vacancies to CV-Library and bring candidate applications into Rocket, helping your team connect with one of the UK's leading job boards.

Connect approved work and finance processes more smoothly with Xero, helping reduce manual administration around invoicing and financial records.

Keep email, calendars and contacts connected to the way your recruitment team already works with Microsoft Outlook, all in one seamless workflow.

We are **Mobile Rocket**

Your Trusted Partner for Recruitment

Founded in 2013, Mobile Rocket has become the all-in-one solution for professionals across the UK. Our app technology has streamlined many businesses, ensuring full compliance, enhancing work efficiency, and saving time.

We help businesses automate, grow, and succeed with smart technology – keeping them ahead of the competition.
